

## **RioMed's Sustainable Strategy**

RioMed Limited is committed to providing quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment and sustains the factors affecting the environment. We will operate in compliance with all relevant environmental legislation, and we will strive to use pollution prevention, sustainable and environmental best practices in all we do.

## **Greenhouse Gas Reporting**

### **Organisational Carbon Emissions (tonnes CO<sub>2</sub>e)**

RioMed's total GHG emissions for past 7 years are as below, these are produced in accordance with the [Greenhouse Gas Protocol](#).

<b>Scope</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2025</b>
Scope 1	3.2	2.21	4.03	2.82	2.27	1.30	1.71
Scope 2	25.2	11.79	12.09	0.0	0.0	7.64	0
Scope 3	48.4	8.6	9.59	19.16	58.11	30.01	52.04
Total	76.8	22.61	25.71	21.98	60.38	38.95	53.75

***Scope 1 – Natural gas, Oil Scope 2 – Purchased electricity, Scope 3 – Travel***

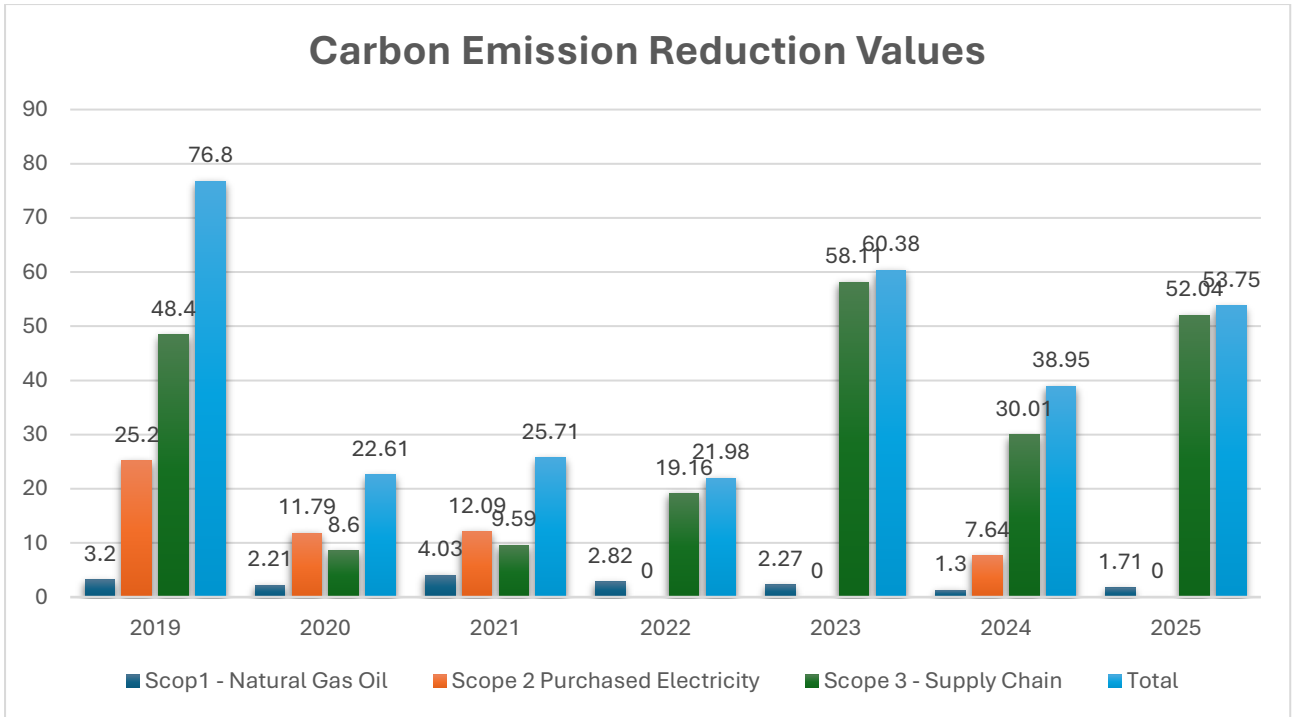

## **RioMed's Carbon Reduction Plan**

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

It is our intention to target a 2%-year-on-year reduction in our GHG emissions. Our Net Zero Target is set for 2035.

Our current emissions are relatively low. We review these aspects annually as part of our **ISO14001 Environmental Accreditation**.

Progress against the reduction targets can be seen in the graph below:

*(Note: The Scope 2 emissions values for 2022,2023 & 2025 are down to 0, since our electricity provider now uses more renewable energy sources for electricity generation)*
